

LONDON

Investment Showcase

September 2026

**Your front door
for investing
into and across
London**

**OPPORTUNITY
LONDON**

Why London

For global and local investors looking for market-beating returns, London offers one of the world's most diverse and connected investment markets. Opportunity London opens the door to the opportunities within it.

London combines scale, liquidity and sustained investor demand. Capital investment reached £7.4bn in the first half of 2026, 14 per cent up on the same period in 2025, with international investors accounting for almost two thirds of activity.¹

Opportunity London connects investors to the projects and partnerships driving London's next phase of growth, working alongside the Mayor of London, all 32 boroughs, the City of London Corporation and more than 80 industry partners.

The London Investment Showcase brings together live opportunities across real estate, energy and infrastructure, providing a clear route into the projects and places helping unlock London's next £100bn of capital investment.

¹ JLL data supplied for Opportunity London

"It's our unique combination of strengths that make London an incredible place to invest and do business. London is open to your talent, your expertise, and your investment. And ready to work with you, not only to generate returns, but to build a brighter future for all."

Sir Sadiq Khan, Mayor of London

The Foundations Of London's Investability

What sets London apart is not one advantage, but its ability to create the conditions for businesses to grow, places to thrive and long-term capital to be deployed with confidence.

At the heart of this are three interconnected strengths that continue to drive investment and growth.

² London Higher, London: The Higher Education Capital of the World (July 2026)

³ Savills. "London Leads Science Take-Up with 66% Increase in H1 2025." Savills UK

⁴ London Higher, London: The Higher Education Capital of the World (July 2026)

Knowledge Economy

London's knowledge economy is powered by world-leading institutions, global talent and a rapidly expanding AI ecosystem. Together, they create the conditions for frontier innovation across AI, life sciences, clean tech and other high-growth sectors, attracting investment and enabling businesses to scale.

A world-leading talent pipeline

More than 140 institutions and 550,000 students make London Europe's leading higher education hub, supplying the talent powering frontier industries including AI, life sciences, creative industries and deep tech.²

Innovation scales in London

London sits within the Golden Triangle alongside Oxford and Cambridge, bringing together world-leading universities, research and venture capital to turn breakthrough ideas into commercial growth. Science-related real estate take-up in London rose 66 per cent in H1 2025, exceeding Oxford and Cambridge for the first time.³

Knowledge creates economic value

London's higher education sector contributes £60.9bn annually to the economy and supports 188,000 jobs, strengthening long-term growth and investment.⁴

Experience Economy

According to London & Partners' latest research, London's world-leading experience economy is redefining how places create value. From culture and sport to retail, hospitality and immersive entertainment, experience-led destinations generate footfall, increase dwell time and attract investment into vibrant mixed-use neighbourhoods.

A £10bn growth opportunity

Around £10bn is expected to be invested in London's experience economy over the next decade, reflecting its growing importance to the Capital's economy.

Immersive entertainment is scaling rapidly

318 immersive experiences operated in London between 2020 and 2025, with the sector growing at a 21 per cent compound annual rate over that period.

Experiences drive wider local spend

79 per cent of attendees spend on food and drink near the venue, demonstrating how experience-led destinations can generate value beyond the attraction itself.

Public-Private Partnerships

London has a proven track record of delivering through partnership. Public and private organisations work together to unlock strategic sites, invest in infrastructure and create the conditions for large-scale development, regeneration and long-term investment.

Public land with purpose

The Greater London Authority's (GLA) 635-hectare land portfolio creates major opportunities for partnership-led homes, jobs and regeneration.⁵

Collaboration that delivers

London's public-private partnerships and development corporations support landmark regeneration, with GLA development programmes expected to deliver up to 68,000 homes.⁶

A city built for partnership

Opportunity London unites every tier of government with 80+ industry partners, giving investors a clear route into London's pipeline.

⁵ Greater London Authority. "GLA Land and Property Limited." London City Hall

⁶ Greater London Authority. "Is GLAP Delivering for London?" London City Hall

Asset Classes

Real Estate

Commercial

Office, sustainable workspaces and retrofit

International Education & Learning

University facilities and global campuses

Experience Economy

Leisure, retail, cultural venues and creative production spaces

Frontier Innovation

Life sciences, deep tech, climate tech

Living

Build-to-rent, student accommodation, later living and affordable housing

Logistics & Light Industrial

Innovative warehousing and distribution hubs

PROJECTS

London's project pipeline offers direct access to live capital investment opportunities across the Capital.

These assets and land sites are ready to move forward, combining clear routes to market with the scale, connectivity and long-term demand offering core to value-add returns, defining London as a market leading destination for global capital.

Brent Cross Town

London Borough of Barnet, Related Argent

Investment Opportunity

Multiple investment opportunities across Brent Cross Town's expanded masterplan. Committed partners for 352 co-living homes, 666 additional student beds and 148 later-living homes, alongside BTR, market sale, affordable, workspace, retail, education and net-zero infrastructure.

Project stage/timeline

Masterplan consented. First residents and occupiers in place.

Key facts

- 180-acre neighbourhood delivering 6,700 homes and 3m sq ft of workspace
- Brent Cross West station connects to St Pancras International in 12 minutes, with onward Eurostar services to Europe
- 44 acres of parks and playing fields
- New retailers include Co-op, GAIL's and Karma Bakery

GDV

£8bn

Asset class

Camden Film Quarter

Yoo Capital

Investment Opportunity

Seeking long-term strategic capital for one of the world's first purpose-built, urban, city-centre film and TV production campuses, and the first of its kind in central London.

Project stage/timeline

Camden Council resolved to grant planning permission in June 2026.

Key facts

- Investment-ready, largely pre-let proposition targeting undersupplied creative industries
- Confirmed occupiers and partners include Hyatt, Oxygen Studios, Closer, Sean Hargreaves & Partners, NFTS and LSA
- Further occupiers include major Hollywood production, internationally leading fashion houses and live entertainment companies

GDV

£1bn+

Asset class

Crystal Palace National Sports Centre

Greater London Authority

Investment Opportunity

Seeking capital and long-term partners to renew a world-renowned athletics stadium, unlocking community and commercial potential within Crystal Palace Park's historic sports complex, in partnership with the Mayor of London.

Project stage/timeline

Site-wide planning approvals secured July 2026.

Construction to commence in 2027.

Key facts

- Redevelopment across a 15-hectare site
- Sporting and community assets in a parkland setting with elite and grassroots access
- Grade II listed main building refurbished including aquatics and indoor sports arenas
- 98 per cent carbon reduction targeted
- Main contractor appointed, with completion targeted for 2029

Construction value

c.£200m

Asset class

Earls Court

Earls Court Development Company

Investment Opportunity

An opportunity for long term aligned institutional capital to deliver Earls Court, central London's last remaining place for a new piece of city.

Project stage/timeline

Planning de-risked in 2025, with immediate opportunity for delivery mobilisation.

Key facts

- 7.5m sq ft across 44 acres, central London's largest cleared development site
- Adjacent to three Underground stations, the Overground and West London Line
- 4,000 new homes, 2.9m sq ft of workspace and 20 acres of public realm
- Collaboration with Imperial College London to anchor a climate innovation ecosystem across Earls Court, as part of West Tech London

GDV

£10bn

Asset class

Liverpool Street

Platform4, Network Rail

Investment Opportunity

Delivering a sustainable and well-connected landmark office building, combined with a transformed retail and leisure destination will secure the future of one of the world's great stations.

The redevelopment will increase the size of the mainline station concourse and ticket hall and improve step-free access.

Project stage/timeline

Planning permission resolved in February 2026; Section 106 negotiations are underway with the authority and statutory stakeholders.

Key facts

- Connects 100m+ passengers annually, reinforcing its role as Britain's busiest rail station
- Delivers 1m sq ft of commercial space and 200,000 sq ft of retail and leisure uses
- Fully accessible station with increased concourse capacity, improving passenger flow and supporting future growth

GDV

£2bn

Asset class

London Tunnels

The London Tunnels

Investment Opportunity

Seeking capital via equity and debt for London's last major tourist attraction: Kingsway Exchange Tunnels are located in central London with a capacity of 4m+ visitors annually. The scale and profitability is comparable to the London Eye.

Project stage/timeline

Full planning secured in 2024 with UK Government backing; shovel-ready and seeking an operating partner.

Key facts

- 86,000 sq ft subterranean destination in central London
- Designed for up to 4.2m visitors annually
- Historic Kingsway Telephone Exchange, linked to Ian Fleming's "Q Branch" legacy
- Supported by partnerships with the Military Intelligence Museum and UK Armed Forces, creating a globally distinctive cultural and tourism asset

GDV

c.£723m

Asset class

Old Oak

Old Oak and Park Royal Development Corporation

Investment Opportunity

A long-term development and investment partnership sought across a variety of living tenures and commercial mixed-uses. Opportunity for investment at both joint venture and plot level.

Project stage/timeline

Planning framework adopted. Delivery partner procurement is underway, with housing delivery targeted from 2029.

Key facts

- 70-acre brownfield regeneration opportunity
- 8,000 homes, including affordable housing
- 2.15m+ sq ft commercial, community and social infrastructure space
- 20 acres of public realm, two parks and an upgraded canal
- £300m+ public investment secured
- New Old Oak Common station with Elizabeth line and Heathrow Express connections

GDV

£10bn

Asset class

Monopoly Mansion

WORQ Group

Investment Opportunity

Development of a flagship Monopoly Mansion destination combining a 4-5 star hotel, immersive Monopoly experience, destination food & beverage, wellness and events, creating one of London's most distinctive experience-led hospitality investments.

Project stage/timeline

Actively seeking London site, equity partners and development opportunities for flagship launch.

Key facts

- Monopoly Mansion combines 100-350 hotel keys with a 15,000 sq ft immersive Monopoly attraction
- Includes destination restaurants, bars, wellness and event spaces
- Backed by the globally recognised Monopoly brand and WORQ Group's integrated hospitality platform, targeting London's growing experience economy and family tourism market

GDV

£85m-£100m+

Staples Corner

London Borough of Brent

Investment Opportunity

Invest in the next phase of growth at one of north London's largest regeneration areas, with routes into land acquisition, joint ventures and phased redevelopment across industrial, mixed-use and residential sites.

Project stage/timeline

Masterplan adopted. A £3m infrastructure programme is advancing, with delivery targeted for 2029/30.

Key facts

- More than 3,000 homes and 3.5m sq ft of industrial floorspace planned
- Over 750,000 sq ft stacked industrial potential beside the A5 and A406 north London principal road connections, and M1 motorway junction
- Around 1,600 homes identified opposite Brent Cross West rail station
- 90MW data centre campus

GDV

£3bn

Impact Partnership Joint Venture

Lendlease, The Crown Estate

The Impact Partnership Joint Venture, formed by Lendlease and The Crown Estate, has a £24bn development pipeline.

Its first phase brings together Euston, Silvertown and Stratford Cross, with potential to deliver 9,000 homes and 7.03m sq ft of commercial space while unlocking complex sites and attracting private and institutional capital.

Euston Development

Lendlease, The Crown Estate

Investment Opportunity

Euston will redefine a key gateway to London through the creation of a sustainable mixed-use neighbourhood, combining best-in-class placemaking, science, innovation, workplace and residential to generate long-term value, strengthen connectivity and supporting inclusive growth across the Capital.

Project stage/timeline

Hybrid planning application due to be submitted in spring 2027.

Key facts

- Approximately 60 acres above and around Euston station
- Potential for around 5m sq ft of commercial space
- Up to 1,500 homes
- Direct National Rail and London Underground connections

GDV

£6bn+

Asset class

Silvertown

Lendlease, The Crown Estate

Investment Opportunity

Opportunity to deliver the next phases of a landmark waterfront regeneration, combining large-scale residential delivery, commercial space and the revitalisation of historic industrial assets. Backed by a £100m commitment from the Mayor of London, the scheme is well-positioned for long-term growth and investment.

Project stage/timeline

Hybrid planning approved in December 2025, with public investment and infrastructure funding supporting delivery of the next phases.

Key facts

- 60-acre waterfront site in east London
- Around 7,000 homes, including 1,800 affordable
- Approximately 1.3m sq ft of commercial potential
- £100m direct public investment from the Greater London Authority

GDV

£5.2bn

Asset class

Stratford Cross

Lendlease, The Crown Estate

Investment Opportunity

A destination for business, living, education and culture. Home to the landmark Turing Building and located alongside the East Bank cultural quarter. Future delivery of a further 2,000 homes including affordable housing, market housing, student accommodation and co-living homes subject to planning permission.

Project stage/timeline

Large parts of the masterplan have been delivered or is under construction. Planning has been submitted for the final four residential plots.

Key facts

- 7 of the 13 plots in the masterplan have been delivered, 2 are under construction
- 2,000 homes & new public park submitted for planning
- Beside Queen Elizabeth Olympic Park, East Bank and Westfield
- Direct Elizabeth line services

GDV

£1.12bn

Asset class

Heat Transmission Main

Cory

Cory is one of London's major resource and energy infrastructure businesses, turning non-recyclable waste into power and low-carbon heat. Its investment in heat infrastructure demonstrates how London is building the systems needed to support growth, decarbonisation and long-term investor confidence.

At the centre of this is the London Strategic Heat Main, which demonstrates the scale of London's emerging low-carbon infrastructure pipeline.

The UK's first large-scale heat transmission system would carry surplus low-carbon heat through a 25km tunnel to networks across the Capital, potentially supplying up to one million homes and cutting heating carbon emissions by around 95 per cent.

Public consultation begins in 2027, with construction and heat delivery targeted for the early 2030s.

PLACES

Across London, entire districts are being reshaped around new homes, infrastructure, innovation and visitor economies.

These places give investors access to multiple opportunities within established or emerging markets, supported by strong local leadership, strategic partnerships and long-term plans for growth.

Barking and Dagenham

Be First

Barking and Dagenham is one of London's most significant growth locations, combining large-scale housing delivery with industrial and economic renewal.

Dagenham East is emerging as a film, media, research and technology cluster around Eastbrook Studios and UCL PEARL.

Thames Road offers housing and modern industrial opportunities, while Box Lane is developing as a nationally significant industrial location with direct, existing links to HS1 and European rail freight routes.

- UK's highest-performing planning authority (*According to the latest published MHCLG stats*)
- More than 3,600 homes delivered through regeneration company Be First
- More affordable homes delivered than any other UK local authority over the past five years
- Eastbrook Studios is a £110m, 22-acre complex supporting around 1,200 jobs
- South Barking identified within the Government's New Towns programme

Barking Riverside

Barking Riverside Limited

Barking Riverside is east London's largest development, with major infrastructure, homes and community assets set along 2km of south-facing Thames frontage.

Following revised consent for up to 20,000 homes, the next phase will accelerate delivery across a broader mix of housing and commercial uses, with new cultural and visitor-economy anchors.

The project is led by Barking Riverside Limited, a joint venture between L&Q and the Mayor of London.

- Up to 20,000 homes consented
- More than £500m public investment since 2016
- 3,000+ homes delivered, with around 7,000 residents
- London Overground extension and River Bus service in place
- Schools, parks, community facilities and co-working already established
- Emerge East Festival attendance increased 60 per cent last year

Battersea

Battersea Power Station Development Company

Battersea Power Station continues its transformation as one of the world's most iconic mixed-use destinations, attracting 40m+ visitors since 2022 and home to 170+ leading British and international brands.

The next chapter is underway, with outline planning submitted this month for the remaining half of the 42-acre masterplan, creating up to 3.2m sq ft of new space and construction has also begun on two Gehry Partners-designed residential buildings.

- Home to Apple's 500,000 sq ft UK headquarters
- On completion: capacity for 25,000 residents and workers, 3m sq ft of commercial space, c.4,000 homes, 250+ shops, cafés and restaurants, and 19 acres of public realm
- The Northern Line extension provides direct access to the West End, City and wider London

Canary Wharf

CWG

Canary Wharf is a leading example of mixed-use regeneration, combining 15.7m+ sq ft of offices with homes, retail, hospitality, culture and waterfront leisure.

Recent commitments from PwC, Barclays and Visa reinforce its commercial strength, while Sea Lanes has transformed Eden Dock into a year-round open-water destination offering swimming, saunas, dining and events.

Together, these uses create a resilient 24/7 district for occupiers and investors.

- 98 per cent estate retail occupancy and more than 76m visitors recorded in 2025
- 15.7m+ sq ft of office space with pre-let development opportunities available
- 320+ retailers including 80+ bars and restaurants, and three hotels
- More than 3,500 residents on the estate, with 160,000 living within one mile

Charlton Riverside

Royal Borough of Greenwich

Charlton Riverside is one of London's largest regeneration opportunities, located between Greenwich Peninsula and Woolwich. It has the potential to become a thriving new mixed-use riverside neighbourhood, delivering around 8,000 new homes and 1,000 new jobs over the next 20 years.

Greenwich Council is working in partnership with the Greater London Authority and Transport for London to help unlock investment, improve transport links and guide the long-term transformation of the area.

- Potential for 8,000 homes and 2m sq ft of new employment floorspace
- Over 1 mile of River Thames frontage
- Parts of the site are within a 15-minute walking distance of Charlton Station, Westcombe Park Station and Woolwich Dockyard Station
- Charlton Station is 18-minute journey via Thameslink to London Bridge
- Charlton Riverside is a 12-minute journey to North Greenwich Jubilee Line (west) and to Woolwich Arsenal DLR and Woolwich Elizabeth Line (east)

City of London

City of London Corporation

The City of London Corporation's Market Sites Regeneration Programme will transform more than 70 acres across London.

Through partnerships with developers and investors, it will unlock new homes, employment space and economic growth, while supporting the relocation of Smithfield and Billingsgate Markets.

The programme combines private-sector expertise with long-term public stewardship to deliver sustainable regeneration, social value and lasting benefits across multiple strategic sites.

- Smithfield Barbican masterplan will shape a connected cultural, commercial and heritage quarter
- London Museum opens at West Smithfield in November 2026, targeting around 2m visitors
- Smithfield Meat Market redevelopment could attract 1.4m visitors and create 600 jobs
- Billingsgate could deliver 4,000 homes and 1m sq ft commercial space
- 42 acres at Barking ready for industrial redevelopment

Greenwich Peninsula

Knight Dragon

Greenwich Peninsula is one of London's largest regeneration projects, transforming 150 acres of riverside land into a new neighbourhood with up to 17,500 homes, workplaces, cultural venues and public spaces.

Connected by the Jubilee line and Thames Clippers, it includes 48 acres of green space, Design District's 170+ creative businesses and a planned Theatre District with purpose-built venues for Secret Cinema and Troubadour Theatre.

- One stop from Canary Wharf via the Jubilee Line
- Around 14 minutes from London City Airport
- Approximately 15,000 jobs supported across the Peninsula
- Adjacent to The O2, a world-renowned entertainment destination with a capacity of 20,000 visitors per show
- Opportunities across residential, commercial, education, hotel and cultural sectors, including on-market and off-market developments

Heathrow Economic Zone

Heathrow

Heathrow's scale and expansion plans create significant investment potential across the surrounding area.

Around £49bn of private investment is planned for a third runway and supporting infrastructure, with delivery commencing in the early 2030s.

This will build on an established industrial and logistics ecosystem, including SEGRO's 1.2m+ sq ft of airside cargo facilities.

Hillingdon, Hounslow and Slough Local Authorities are also investigating an Economic Activity Zone to support long-term growth across greater west London.

- 80,000 people work onsite daily, with 90 per cent employed by businesses other than Heathrow
- More than 84m annual passengers, potentially rising to nearly 150m
- Cargo capacity expected to increase by 50 per cent
- Expansion will drive demand for industrial, logistics, office and transport infrastructure
- Further opportunities across terminals, surface access, sustainability and innovation

Knightsbridge

Knightsbridge Partnership

Knightsbridge is one of London's most established luxury districts, anchored by Harrods, Harvey Nichols and Hyde Park.

A major place and public realm strategy is now seeking investment to enhance its global competitiveness, visitor appeal and long-term property performance.

Proposals will transform Brompton Road, Knightsbridge and adjoining streets through wider pavements, new planting, improved crossings, stronger gateways and upgraded public spaces.

- Around £75m investment sought for public realm improvements
- Up to 4.3m additional visitors annually
- Up to £2.8bn additional spending over ten years
- £270m–£500m potential uplift in retail and leisure property value
- 104 new trees and 19,000+ sq ft of planting
- Up to 950 permanent jobs

Oxford Street

Oxford Street Development Corporation

The Oxford Street Development Corporation (OSDC), established by the Mayor of London, is leading the regeneration and pedestrianisation of one of the world's most iconic high streets.

Oxford Street will become a distinctive destination, with reimagined public spaces alongside flagship retail, next-generation workplaces, leisure, culture and hospitality.

The transformation will attract investment, strengthen London's economy and set a new global standard for city streets.

- Pedestrianisation is on track for Autumn 2026
- OSDC will provide a proactive, design-led planning service focused on quality and timely decision-making
- The OSDC area covers 54 hectares in London's West End, including 18m sq ft of commercial space
- Oxford Street attracts around 120m visitors annually
- Wider area includes Marble Arch proposals by The Portman Estate

Regent Street

The Crown Estate

Regent Street, Piccadilly Circus and Haymarket are set for a once-in-a-generation transformation through the partnership between Westminster City Council and The Crown Estate.

The proposals will create a greener, more climate-resilient route between Regent's Park and St James's Park, transforming streets and public spaces and strengthening the West End's position as a globally recognised destination for investment, business, tourism, culture, retail and leisure.

- Enhanced public spaces for the 70m people who visit the West End each year
- A twenty-fold increase in green cover, including 400 new trees, helping to reduce local temperatures by up to 5°C
- Enabling an additional 14,000 daily walking and cycling trips, supported by public seating every 50 metres and designed to increase dwell time

Royal Docks

The Royal Docks Team (Greater London Authority and Newham Council)

The Royal Docks is one of the UK's largest regeneration opportunities and London's only Enterprise Zone. More than £10bn of investment is creating a major waterfront district anchored by business, tourism, education and industry.

With plans for 36,000 homes and 55,000 jobs, the area offers significant residential, commercial and leisure opportunities, supported by strong transport links and long-term growth potential.

- London's only Enterprise Zone, supported by £10bn+ investment
- 36,000 homes and 55,000 jobs planned
- Excel London and Immerse LDN anchor the visitor economy, attracting 8m+ annual visitors
- Around 12,000 homes at Silvertown and Thameside West
- Royal Albert Dock and Albert Island offer industrial, education and innovation opportunities
- Connected by London City Airport, Elizabeth line, DLR, Silvertown Tunnel and river services

Business Improvement Districts (BIDs)

London's leading Business Improvement Districts exist to strengthen local economies and create better-performing places for businesses, investors and communities.

By coordinating private-sector leadership, local knowledge and targeted investment, they improve the public realm, promote destinations, support safer streets and help protect long-term real estate value.

Convening investment

Bringing public and private partners together to unlock funding for regeneration, infrastructure, cultural projects and public realm improvements.

Improving place performance

Supporting cleaner, safer and better-managed districts that strengthen occupier confidence, visitor experience and long-term real estate performance.

Driving destination appeal

Promoting London's commercial districts through coordinated marketing, activation, events and improvements to the day and evening economy.

Connecting local networks

Providing investors with detailed market knowledge and direct access to local businesses, property owners, institutions and public-sector partners.
